

## MEETING MINUTES 3/26

Present:

- Jake
- Emily
- Dr. Rezaie

Tubing:

- Best bet will probably be 2.5" with .065" thickness tubing
- ↳ tubing ought to be okay b/c it is a low pressure

**To Do: Order tubes by tomorrow**

Ideas for connecting tubes

- look at HVAC tubing
- flexible adaptors like the one pictured
- consider Teflon because it is cheap
- for a temporary project, J-B weld and tape/adhesives ought to be fine
